speak with a Director.*

## Community Preschool's Purpose

The purpose of  
Community Preschool  
shall be to provide  
opportunities for  
young children to  
discover and  
experience their world  
in a Christian  
atmosphere.

# Philosophy & Objectives

Young children are curious and active explorers. They observe and imitate the world around them.

Community Preschool Provides:

- A safe, nurturing environment
- Interaction with other children and adults
- Learning through hands-on, concrete experiences using the five senses
- Language activities to increase vocabulary and ideas
- Problem-solving practice
- Challenging but age-appropriate activities
- Imitation and questioning opportunities.

The Ohio Department of Education have developed Early Learning Content Standards for creating learning experiences to meet the needs of all children. The standards are part of our lesson planning. You may view the standards at [www.ode.state.oh.us](http://www.ode.state.oh.us)

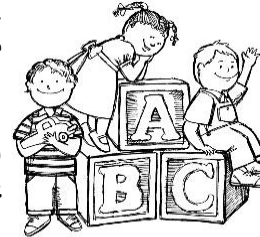

We are blessed to live in a supportive community.

# Curriculum

Community Preschool is an outreach ministry of Community United Methodist Church. We have adopted the *Creative Curriculum for Preschool*, published by Teaching Strategies to assist teachers in planning and implementing developmentally appropriate lessons. Developmentally appropriate means teaching in ways that match the way children learn while providing children with opportunities to learn and practice newly acquired skills.

Bible-based lessons that help develop positive character traits are also part of the curriculum.

We want children to have fun and to realize that preschool is a great place to be!

Along with classroom activities we include community field trips. Visits to the Fire Station, Post Office, and the local park help children develop a sense of community. The local librarian, police chief and special guests also come to visit.

The Pastor meets monthly with the children in the church sanctuary for stories, prayer and music.

# Family Involvement

We recognize that parents are their children's first teachers. We invite and encourage parent participation. Parents are welcome to join us in the classroom.

In the fall, Parent representatives are selected to serve on the Preschool Board. Representatives assist in developing program policies.

Community Preschool offers a Parents Club. The group meets as needed to discuss items of interest and help plan special activities for our preschoolers and families.

The group also assists with any fund raising activities.

The members of Community United Methodist Church support families through worship, prayer, family programs and "Little Blessings Scholarships".
